# What is WP-CLI ?

A command line interface for managing your WordPress  
installs for \*nix like environments

(windows support is somewhat limited)

Initial Code By

Cristi Burcă & Andreas Creten

Maintained by

Daniel Bachhuber

# What Can WP-CLI Do?

You can install/update core, plugins and themes.

Manage content and users.

Much More!

Works on single and multi-site installs.

# Why Command Line?

- CLI = fast
- It can be scripted
- Interface is simple and doesn't often change
- Works on slower connections
- Errors easy to detect
- Built in help for every command

# Basic Commands

All commands need to reference a WordPress instance

```
worcamp-demo:~ $ wp --info
```

```
PHP binary:      /Applications/MAMP/bin/php/php5.6.2/bin/php
PHP version:     5.6.2
php.ini used:    /Applications/MAMP/bin/php/php5.6.2/conf/php.ini
WP-CLI root dir:  phar://wp-cli.phar
WP-CLI global config:
WP-CLI project config:
WP-CLI version:  0.19.1
```

# Common Commands

```
wp core [ download | config | install | .. ]  
wp plugin [ install | update | search | activate | .. ]  
wp theme [ install | update | search | activate | .. ]  
wp user [ add-role | create | delete | list | .. ]
```

# Install and Configure WordPress

```
# Download latest WordPress
wp core download

# Configure the WordPress install (makes wp-config.php)
wp core config --dbname="db_namehere" --dbuser="db_usernamehere" \
--dbpass="yourpasshere" --dbhost="localhost"

# Installs WordPress (replaces the configure screen on first load)
wp core install --url=http://yoururl.com --title="WCBNE Test Site" \
--admin_user="my-support" --admin_password="my-TEMPpassw0rd" \
--admin_email="youremail@yoururl.com"
```

# Install & Activate Plugin

```
# Install multiple plugins
wp plugin install woocommerce wc-vendors
```

```
# Activate multiple plugins
wp plugin activate woocommerce wc-vendors
```

```
# Search for a plugin on the WordPress repository
wp plugin search "WC Vendors"
Success: Showing 3 of 5 plugins.
```

name	slug	rating
WC Vendors	wc-vendors	100
YITH WooCommerce Multi Vendor	yith-woocommerce-product-vendors	90
WooCommerce - Store Exporter	woocommerce-exporter	86

```
# Install and activate multiple plugins
wp plugin install woocommerce wc-vendors --activate
```

# Install & Activate Theme

```
# Install the theme
wp theme install storefront

# Activate the theme
wp theme activate storefront

# Install and activate at the same time
